

REMARKS

Applicants appreciate the detailed examination evidenced by the Final Official Action mailed December 13, 2005. Applicants also appreciate the continued indication that Claims 17, 18, 25, and 26 include patentable subject matter and would be allowable if rewritten as suggested by the Examiner. *Official Action, page 9.*

In response, Applicants have:

Canceled Claims 1-13;

Amended Claim 14 to include the recitations of allowable Claim 17;

Amended Claim 18 to depend from Claim 14; and

Amended Claim 25 to independent form.

Applicants respectfully request entry of the present Amendment After Final, as these amendments only cancel rejected claims and amend the remaining claims to be in allowable form or to depend from an allowable claim. The cancellation of the rejected claims is being done to advance the present application to allowance and is not an admission that the rejected claims are unpatentable over the art of record. Accordingly, Applicants respectfully request entry of the present Amendment After Final, the withdrawal of all rejections, and the allowance of all claims in due course. If any informal matters arise, the Examiner is encouraged to contact the undersigned by telephone.

Respectfully submitted,
